# PURCHASING MANUAL

UPHSL PROPERTY

4. External Provider who meet any of the evaluation criteria may then be centered into the purchasing system.

5. Upon successful receipt or review of product or services, the purchasing head may then advance the s external provider status approved.

6. If the results of review of product or service received are insufficient of otherwise lacking, the buyer may then elect to charge the external provider status to disapproved, or leave it at condition until further orders are received and reviewed.

7. An external provider may also be listed as restricted, where certain purchasing restrictions are placed on the external provider. This may be useful to limit what products may be purchased from external provider, of to place other conditions.

8. The Approved Suppliers List indicated the external provider, location, approval status ( Approved, Conditional, Disapproved, Restricted), and the scope of approval (typically commodity type of product family). Re-approval of external provider is continual and ongoing based on the external provider ability to meet the criteria. For restricted status, a note of the restriction must also be include.

# PURCHASING PROCEDURE
